GRC Analyst | Third-Party Risk Management | AI Governance | ISO 27001 | IBM OpenPages

PROFESSIONAL SUMMARY

GRC Analyst at Deloitte USI with hands-on experience in Third-Party Risk Management (TPRM) and AI Governance — a combination still rare in India's GRC talent pool. Managing vendor onboarding, periodic reassessments, and control testing on IBM OpenPages GRC (GORO). Validated an in-development AI tool's SOC 2 control extraction against AICPA Trust Services Criteria across 10–15 reports. CS background enables effective collaboration with engineering and product teams. Targeting internal GRC / IT Risk Analyst roles at product and technology companies.

EXPERIENCE

Deloitte USI | *GRC Analyst – Third-Party Risk & Compliance* | Jun 2025 – Present | Hyderabad

- Manage vendor onboarding intake process — conduct calls with business stakeholders to capture intake form responses and validate Risk Assessment Forms (RAF) ahead of InfoSec and third-party review handoffs
- Monitor ongoing supplier risk posture through periodic reassessment cycles — verify scope changes and validate inherent-risk questionnaire responses against baseline records in IBM OpenPages GRC (GORO)
- Extract and review third-party risk intelligence reports (Interos) and financial health ratings (RapidRatings); escalate material changes to the risk team
- Participate in control testing — validate third-party lifecycle process controls on OpenPages GORO by testing supplier data attributes and system logic against defined control criteria
- **[AI Governance]** Validated an in-development AI tool's automated SOC 2 control extraction against AICPA Trust Services Criteria — benchmarked AI outputs against human-reviewer judgment across 10–15 reports with a 4-level QA review structure

Deloitte USI | *QA & Content Operations Analyst* | Nov 2024 – Jun 2025 | Hyderabad

- Supported content operations and QA workflows on Adobe Experience Manager (AEM)
- Transitioned internally into Cyber GRC – TPRM via competitive internal interview process (Jun 2025)

SKILLS

GRC Platforms: IBM OpenPages GRC (GORO), Interos, RapidRatings

Frameworks: ISO 27001:2022, NIST CSF 2.0, SOC 2 (Trust Services Criteria), NIST AI RMF, NIST SP 800-30, GDPR, India DPDP Act 2023, RBI PA Guidelines

Risk Management: TPRM, Vendor Risk Management, Risk Register, Control Testing, Inherent/Residual Risk, KRI Development, FAIR Methodology, BCP/DRP

AI Governance: AI Tool Risk Validation, NIST AI RMF Application, EU AI Act Awareness, AI Risk Assessment Framework Design

Technical Awareness: Python, Burp Suite, OWASP Top 10, Linux, Java

EDUCATION

B.Tech, Computer Science & Engineering — ITER-SOA University, Bhubaneswar | 2024 | CGPA: 8.71

CERTIFICATIONS

- **ISO 27001:2022 Lead Auditor** — Udemy *[Completed]*
- **Google Cybersecurity Professional Certificate** — Coursera / Google *[Completed]*
- **GRC Analyst Foundation** — Udemy *[Completed]*
- **ISO 27001:2022 Lead Implementer** — *[Completed]*

PORTFOLIO — PAYSHERE GRC PROGRAM (SIMULATED FINTECH)

9-deliverable portfolio built during a self-directed 10-week GRC program: Risk Register (FAIR), Information Security Policy Framework, ISO 27001 ISMS + Gap Assessment, Full SoA (93 Annex A controls), NIST CSF 2.0 Profiles + 12-month roadmap, SOC 2 Readiness Assessment, GRC Program Blueprint, TPRM Framework Redesign + AI Tool Risk Assessment Template (NIST AI RMF aligned), Regulatory Compliance Matrix (GDPR + DPDP Act + RBI PA Guidelines).
